BUILDING THE ULTIMATE UTV

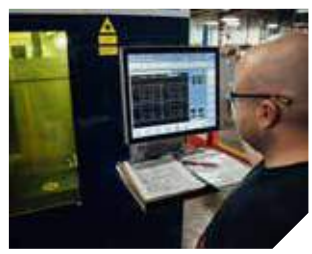

We have one goal here at Intimidator – to create the ultimate UTV for our customers. Since the inception of Intimidator, that’s been at the forefront of our decisions. We want you to have the best experience across our lineup. Whether you’re checking the fence line, trail riding with the family, out to bag the trophy buck, or on a quick ride, dependability and durability matter. With Intimidator UTVs, you can do all that and so much more. We start the foundation of every model featuring premium steel, laser cut to precision and hand welded by men and women who give their best each time they strike an arc. Additionally, we have ten standard premium components featured on every vehicle.

From looks to performance, Intimidator is set apart from the competition, but that’s not all that sets us apart. Another critical feature in the foundation of our company is the focus on family. Not only do we try to build the best UTV for yours, but we pride ourselves on our commitment

to our work family. Whether it’s through our giving culture or our dedication to employee care, our employees shine through in our products.

We know that you have a lot of choices as a consumer buying a UTV. When you choose Intimidator, rest assured that

not only the product but the company and employees behind it are just as passionate as you about having the **Ultimate UTV.**

BUILT IN

PREMIUM COMPONENTS

STEEL SKID PLATE

Protect the underside of your UTV against brush, rocks, and mud with the standard steel skid plates on all Intimidator models.

PREMIUM SEATING

Our bolstered seating not only elevates the units look, but it also provides additional comfort on long trail rides.

HEAVY-DUTY FRAME

Made from 1.5" square tubing, the Intimidator frame is built to last and is backed by a 5-year frame warranty.

ROHVA CERTIFIED ROLL CAGE

Extra protection is always a good thing and that comes in with our ROHVA certified roll cages.

LOCKING REAR DIFFERENTIAL

The push-button locking oversized rear differential allows for both Turf Mode and 4WD capabilities.

FULL COLOR IN-DASH DISPLAY

The 4" and 7" dash displays are easy to read and give more of an automotive experience when operating your Intimidator.

We are focused on building the ultimate UTV. To do that requires premium components. Compare these features and see why we're separate from the competition.

07

AUTOMOTIVE QUALITY PLASTICS

All our colored plastics are automotive quality with the plastics dyed all the way through to prevent fading, peeling, or flaking.

08

HEAVY-DUTY DISC BRAKES

Our automotive grade brakes are oversized to make stopping on a dime a breeze.

09

2" RECEIVER HITCH

Rated for towing 2,100 pounds (Classic Series) and 2,500 pounds (GC1K Series), there's plenty of power to haul whatever is needed.

10

ROBUST SUSPENSION WITH OVERSIZED COMPONENTS

Built to last, our suspension comes with oversized a-arms, hubs, knuckles, and polyurethane bushings.

11

5-YEAR FRAME WARRANTY

We are so confident in our frames that we offer the industry's only 5-year warranty.

12

HEAVY-DUTY HALF SHAFTS

Takes more power from the transmission and differential and transfers it to the wheels.

THE INTIMIDATOR UTV STORY

In 1983, 17-year-old newlyweds Robert and Becky Foster bought a fireworks stand and never looked back. Decades later, we have them to thank for always chasing their dreams, one of which was to build the best side-by-side ever.

01 // INTIMIDATOR GROUP ESTABLISHED

In 2013, after successfully launching other businesses, the Fosters founded Intimidator Group to produce a world-class 4X4 utility vehicle that could excel whether at work or at play.

02 // ROBERT'S DREAM

Since childhood, Robert possessed a love of engines and mechanics, so he applied that lifelong passion to his UTV design, meticulously going over every detail to ensure the machine's durability, performance, and comfort.

03 // INTIMIDATOR UTV RELEASED

Featuring an entirely welded chassis, the first Intimidator UTV exceeded its lofty standards and shipped from Batesville, Arkansas, on August 7, 2013, fulfilling the mission of offering a world-class 4X4 utility vehicle.

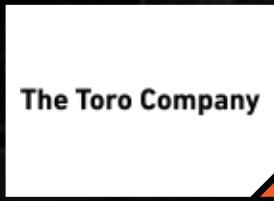

04 // PRODUCTION SPACE EXPANDED

The existing operating space was more than doubled in 2019 by the opening of a 200,000-square-foot manufacturing facility, the first of three planned expansions.

05 // EXPONENTIAL GROWTH

Over just a few short years, Intimidator Group has grown to house five unique brands, employ approximately 550 people, and partner with more than 500 dealers across 39 states.

06 // ACQUIRED BY THE TORO COMPANY

In January of 2022, The Toro Company purchased the Intimidator Group family of brands, allowing both companies—as well as all brands owned by TTC—to grow and thrive by sharing resources and technology.

07 // CONTINUED VISION

As we look to the future, the mission of Intimidator Group continues under the Toro umbrella, offering premium products that flaunt unparalleled strength, power, and performance—all while remaining affordable.

10+ ACRES UNDER ROOF

***In Intimidator Owned
38-Acre Industrial Park.***

We've got room to expand and that's exactly what we're doing. We recently broke ground on a new state-of-the-art paint facility with additional plans to build warehousing, fabrication, offices, and more at our facilities in Batesville, Arkansas.

"We look forward to expanding our footprint not only in Batesville but with all our brands. Our facility expansions allow us to continue making innovative products for which the Intimidator Group is known."

~ John Swanson - General Manager

PICK YOUR POWER

TGB 1000

Models: GC1K, GC1K Crew, and GC1K Truck

This beast of an engine offers the best performance available on the UTV market.

The 1000 TGB engine gives our UTVs the boost they need to perform at peak output.

- // **83 HP - Class Leading**
- // **Speeds up to 65 mph**
- // **67 ft/lb torque**
- // **4-Stroke, V-Twin, 2 Cylinder SOHC**

KOHLER® COMMAND PRO® EFI 750cc GAS

Models: Classic 750

If max speed isn't your thing, then the dependable speed and low fuel usage of the Kohler 750 is your engine. This fuel-sipping machine saves you big on gas and allows you to cover more ground between fill ups.

- // **23 HP**
- // **Speeds up to 35 mph**
- // **38.1 ft/lb torque**
- // **4-Cycle**

KOHLER® 1000cc DIESEL

Models: Classic 1000 and Truck

Fast-acting fuel injection technology delivers the punch you need and fuel savings you expect.

Our only diesel engine, this is your choice when you want diesel power and dependability.

- // **23 HP**
- // **Speeds up to 35 mph**
- // **36.8 ft/lb torque**
- // **4-Stroke In-line**

48v ELECTRIC MOTOR

Models: Classic EV

The 48 volts of power in this rig is enough to make you question if it's even electric.

The quiet ride paired with our rugged frame allows for a long list of tasks and uses.

- // **30 HP**
- // **Speeds up to 23 mph**
- // **119 ft/lb torque**
- // **Direct Drive**

TIRE PACKAGES

Each GC1K comes with a specific tire package. See what comes with each stage below.

// Stage 1

The Stage 1 comes with 27x9x14 front and 27x11x14 rear and 14" steel wheel with 6-ply Mud Lite II tires.

// Stage 2

The Stage 2 comes with 27x10x14 front and 27x12x14 rear and 14" aluminum wheel with 8-ply Journey tires.

// Stage 3

The Stage 3 comes with 28x10.5x14 radial and 14" aluminum wheel with 8-ply Journey tires.

Upgrade one level on your tires. If you have a Stage 3, upgrade to 30x10.5x15 with 15" aluminum wheels and 8-ply Journey tires. (GC1K Classic only)

GCIK BUMPERS

One of the defining features of the GCIK series stages are the American Steel front bumpers. See below to spot the differences.

// Stage 1

The lower front bar provides protection to the front frame.

// Stage 2

This level adds the protection piece to guard the front grill.

// Stage 3

The final step adds the bull bars around the headlights.

*Upgrade throughout the different levels to get the bumper that fits your needs.

MORE STORAGE

The GC1K Truck offers two all-metal, heavy-duty tool boxes to store your equipment, tools, and supplies for the next job. The fully welded tool boxes offer 3.5ft³ of storage, aluminum hinges, and are sealed and waterproof.

MOBILE WORK BENCH

Out on the farm or job site and nowhere to set up your tools or gear? Just fold down one side of the bed for a large, mobile workstation at a convenient height. Check it out on the GC1K Truck models or the Versa Bed upgrade on the GC1K and Classic model.

ELECTRIC DUMP BED

Easily unload what you're hauling with the electric dump bed. With the flip of a switch on your dash, the 6' bed lifts with ease.

Carry up to 1,000 pounds of cargo to get the job done.

VERSA BED

We've raised the bar once again, innovating something in the UTV market that is both versatile and economic to add even more value to your Intimidator UTV! Our Versa Bed is large enough to handle your cargo and tough enough to get the job done.

THE ULTIMATE ADDITION

The Versa Bed allows for the perfect combination of work and play. Keeping the speed and horsepower of a smaller model with the truck-style bed creates the dual action needed to tackle both tasks. Built with high-grade steel for the sides, thick gauged aluminum treadplate floor, and combined with industry-leading bed size, there's no task too easy or hard. The foldable sides convert to a flatbed allowing you to haul more cargo, use an on-the-go workbench, and load and unload the heavy stuff easily. Plus, an electric bed dump means there's no shortage of uses. This versatile upgrade allows for the easy completion of any hauling job which allows you to get to the fun stuff faster.

The Versa Bed is available for the Classic models (except the Electric) and the GC1K Classic models.

// Largest Factory Bed in the Industry for this Category

// All Steel Construction

// 44" x 64" x 14"

// 21.45ft³ Storage

// Available on All Non-Electric Classic Units & All GC1K Classic Units

THE ORIGINAL CLASSIC SERIES
